

# PROGRAMS IN LEBANON

**POINT INFO**

23 mars 2023

Credit: Arnaud Finistre – Medical Mobile Unit in El Qaa

# Context

« Complex crisis » situation:

- Social crisis starting in 2019
- Covid in 2020 followed by the port blast on August 4th 2020
- Progressive deterioration of the economic and financial situation reaching a top on summer 2021 (fuel and medical drugs shortage)
- Political crisis starting on october 2022 with presidential vacancy and dismissed gouvernement

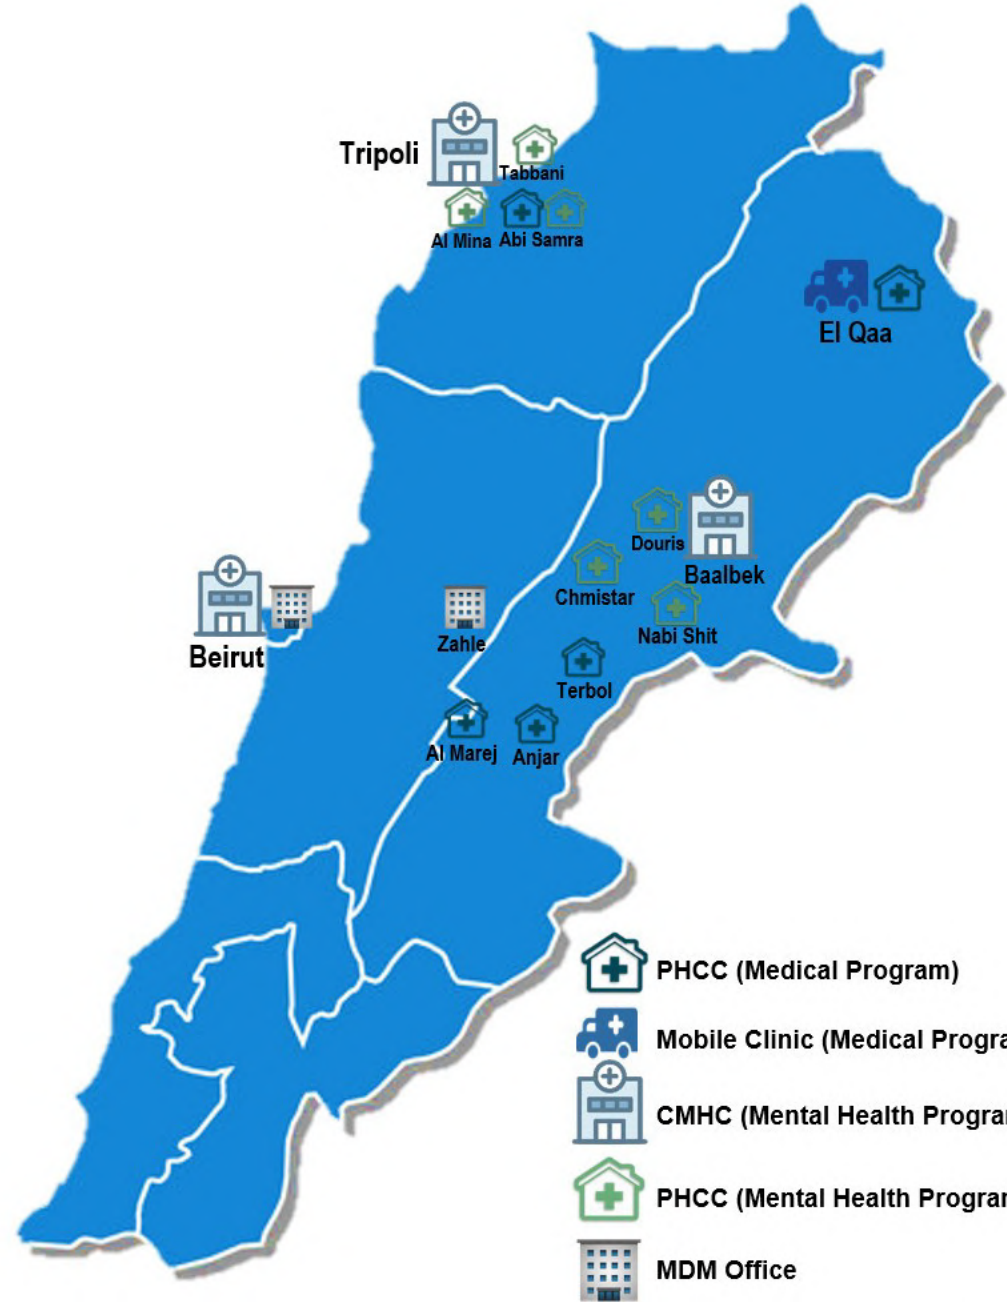

# Context

Economic and financial situation has been keeping deteriorating since 2020:

- Inflation in dollars is estimated at 35% for 2022;
- Lebanese Pound is today reaching 110.000 LBP = 1\$ (in 2019, 150.000 LBP = 100\$)

→ All those element have a huge impact on public services, especially education and health

# MdM interventions

# MdM interventions

3 projects are currently ongoing:

- SAQUIRH Project: access to primary health care services, in consortium with PUI and AMEL. MdM is bringing the expertise regarding intervention to MHPSS in PHCC.
- ReCEVAL Project: implementation of national mental health program, in consortium with SKOUN (addiction), Embrace (suicide) and NMHP. Support to implementation of referral centers specialized in MHPSS at primary health care level.

## MdM interventions

- Support to El Qaa PHCC, through sustaining MHPSS service in the PHCC, supporting MMU activities and home-care visits.

## MdM interventions

Some numbers... MdM in 2022 it's:

- 11.470 MH consultations for a total of 1.350 beneficiarries;
- 69.866 PHC consultations
- 3.946 SRH consultations.
